- **Agenda**

Updates of the following:

  - Design and Structure
  - Observations and recommendations about the project
  - Progress of the documents
  - Update of the software itself

DESIGN & STRUCTURE

```
                          Log In
                            |
                            v
                        Main Menu
              /             |             \
             v              v              v
           View          Delete           Add
          /    \                         /    \
         v      v                       v      v
      Cancel   Edit                 Submit   Clear All
              /    \                       Cancel
             v      v
          Cancel   Save
```
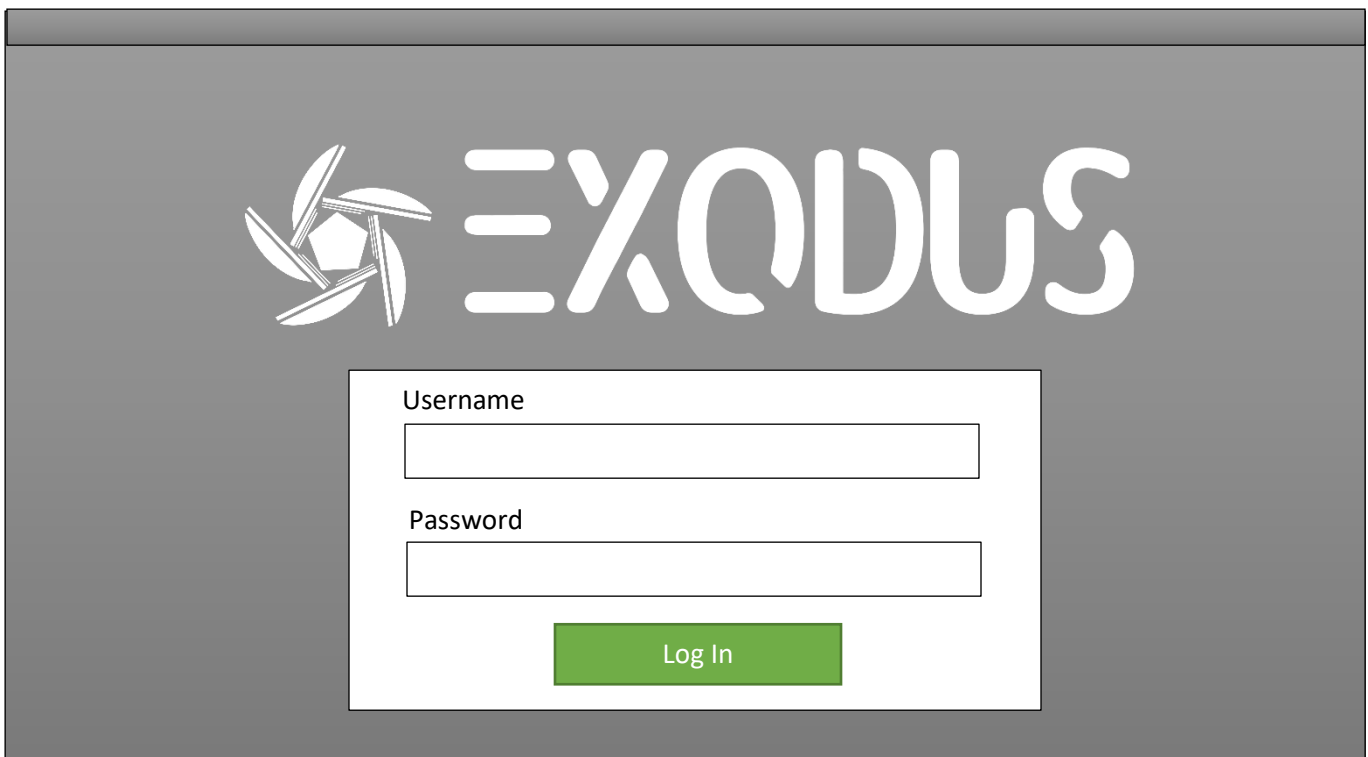

Structure & Features:

- Log in – allows users to log in, it needs only the username and the password of the registrar.

- Main Menu – this shows the saved data of students. It is a list where the names and the school IDs of the students are being displayed. The main menu allows the registrar to add, delete and view.
    - Add – adds new data of the students, allows the user to create a new form.
    - Delete – deletes a data. Press and choose the data to be deleted then press confirm in the confirmation dialogue that will pop up, then the data will be deleted.
    - View – view the data sheet / form of a certain student. Press view then choose a certain data to view.

- Add - adds new data of the students, allows the user to create a new form. The add button open ups a form. The form has the following buttons:
    - Submit – submits the already filled up form. The software MUST REQUIRE the user to fill up the form before the submission.
    - Clear all – clears the whole form.
    - Back / Cancel – takes the user back to the Main menu WITHOUT having changes at all.

- View – view the data sheet / form of a certain student. Press view then choose a certain data to view. The view page's structure is similar to the student information form. However, the view page already has data. The view page is ONLY FOR VIEWING. There's a button of editing. View page has the following buttons:
    - Edit – allows the user to edit the form. It has the buttons save and cancel. Save button saves the newly edited data then goes back to the main menu. The cancel button brings back view page WITHOUT any changes done.
    - Back / Cancel – from the view page back to the main menu.

Pages & Structures: these are only structures, the pages will be designed after the structures are being implemented, discussed, or chosen.

Log In Page

A. If the user entered the wrong username or password, a dialogue will appear warning the user. This includes also if the user did not fill up in any. In other words this should be REQUIRED in logging in.

Main Menu Page

I.   **The Pages' Whole Structure**

   A. Individual view button for each student data. Has the scrolling bar but the
   buttons (delete and add) will not be affected.

Faith Kaye A. Superior	2021-*****	View
Franchie Marie F. Godito	2021-*****	View
Bhen Jovert C. Limos	2021-*****	View
Angelo Geant A. Gaviola	2021-*****	View
Kimberly Marie O. Arias	2021-*****	View
Johnryl N. Candelon	2021-*****	View

Delete   Add

B. View button at the bottom. Has the scrolling bar but the buttons (delete and add) will not be affected.

Student Information Form Page

I.   Landscape
   A. Wider – the disadvantage is that it looks too compressed.

B. Arranged for big spacing – The type of information is aligned and for me is not arranged.

STUDENT INFORMATION

Last Name

First Name

Middle Name

Suffix

Colors

    I.   **Background color**
- Log in Page - #272B30
- Main Menu – white
- Student information Page - #272B30
- The rectangular color after the background, this is the form itself – white

    II.   Buttons
- Red – Cancel or Back, and Delete.
- #008796 (shade of blue)– View
- #838383 (gray)– Edit and Clear All.

Planned Improvements for the Next Days:

- After the structures are chosen, the graphic designer is expected to design the pages without the touching anything from the structure.
